

Report on Pet Wellness Application

* Problem Statement: Pet owners often face challenges in managing their pet's overall wellness. This includes tracking medical schedules, booking vet appointments, maintaining diet plans, organizing grooming schedules, and managing expenses. Existing solutions either address individual aspects or lack the user-friendliness required for holistic pet care, leading to missed responsibilities and unnecessary stress for pet owners.

* Description: Pet Wellness Tracker is a user-friendly and comprehensive application designed to streamline pet care management. This app centralizes all essential aspects of pet wellness, ensuring convenience and peace of mind for pet owners. The app includes the following features:

1. Vet Appointment Booking: Simplify the process of scheduling vet visits and sending reminders for upcoming appointments.
2. Pet Diet Tracker: Help pet owners maintain optimal nutrition for their pets by tracking meals and creating diet plans.
3. Pet Adoption: Provide a platform to explore and adopt pets, connecting users with adoption centers.
4. Vaccination Tracker: Ensure pets are vaccinated on time with reminders and a detailed log of their vaccination history.
5. Expense Tracker: Track and categorize pet-related expenses like medical bills, food, grooming, and accessories.
6. Grooming Schedule Tracker: Organize and track grooming activities such as bathing, nail trimming, and fur maintenance.

* Existing Apps and their Drawbacks:

1. PetDesk: Manages vet appointments and medical records.
 - Drawback: Limited to partnered vets, lacks diet and expense tracking.
2. Flocker: A well-ness wellness-focused pet care app.
 - Drawback: No expense tracking or grooming schedule management.
3. MyPetsWellness: Tracks medical records and allows appointment booking.
 - Drawback: Lacks diet ~~track~~ tracking, expense management, and grooming ~~feat~~ features.

* Our Solutions & Advantages:

- All-in-one Management: Combines vet booking, diet tracking, grooming, vaccination, expenses, and adoption in one app.
- ✓ • User-Friendly & Centralized: Easy navigation with all pet-related data - appointments, expenses, and healthcare records in one place.
- Smart Reminders: Custom alerts for vaccinations, feeding, grooming, and vet visits to ensure timely care.
- Community & Adoption Support: Connects users with adoption centers to promote responsible pet ownership.
